Ashland Consumer Markets

SAINT VINCENT COLLEGE  
Alex G. McKenna School of Business, Economics, and Government

January 24, 2017

Dear Review Committee:

At the request of our senior accounting major, I am submitting this analysis of the accounting curriculum at Saint Vincent College, as it matches with CPA requirements in the state of Illinois. Please accept the Integration table below showing the course title and number as well as the number of stand-alone or integrated hours awarded for the business communications, business ethics and research and analysis in accounting. Some of the courses listed are not required for the accounting major, but are offered to accounting majors that will fulfill the business communications, business ethics and research and analysis in accounting requirements.

As for the accounting requirements, accounting students at Saint Vincent College are required to take Cost Accounting. Students are not allowed to take managerial accounting if they are an accounting student. Topics covered in Cost Accounting incorporate items in managerial accounting at a higher level.

If there are any questions, please contact accounting professor Dr. Robert DePasquale ([rob.depasquale@stvincent.edu](mailto:rob.depasquale@stvincent.edu)) (724-537-4589).

Sincerely,

Gary Quinlivan, PhD  
Dean of the McKenna School  
Saint Vincent College
