Template Directions:

Students should complete the shaded portions of this template by clicking on the boxes next to each course taken (or planned). Also, for the variable credit electives, the total credits should be entered into the shaded cells. The template formulas will adjust internship hours to allow only 3 SCH to be applied to the 30 SCH required for ACC and the remainder towards the non-ACC BUS requirements. SCH requirements are conditionally formatted so that those met are green and deficiencies are red. In each row only 1 course should be selected. If 2 are selected an error message will be displayed.
