# Illinois Board of Examiners

Mission: "To protect the public interest by providing qualified Certified Public Accountants through certification, and to provide quality service."

## I. The Agency

### A. Introduction

The Illinois Board of Examiners is a State of Illinois Agency created by the Illinois Public Accounting Act (225 ILCS 450/). The primary function of the Agency as stated in §450/2 of the Act is: "... *The Illinois Board of Examiners determines the qualifications of persons applying for certificates of Certified Public Accountant and makes rules for and conducts examinations for determining the qualifications.* "

The Board reviews the qualifications of candidates for the Uniform CPA Examination, as well as applications for reciprocal CPA certificates and Total Transfer of Credit from other jurisdictions. Over 100,000 Illinois Certified Public Accountant Certificates and Certificates of completion of education and examination requirements have been issued since 1903.

### B. Composition of the Board

§450/2 of the Act states: "*The Board shall consist of 11 examiners, including 2 public members. The remainder shall be certified public accountants in this State who have been residents of this State for at least 5 years immediately preceding their appointment, except that one shall be either a certified public accountant of the grade herein described or an attorney licensed and residing in this State and one shall be a certified public accountant who is an active or retired educator residing in this State.*" During Fiscal Year 2021, the period covered in this report, the board consisted of eleven appointed board members, including nine CPAs licensed/registered in the State of Illinois and two public members. Of the nine CPAs, two were educators and three were also attorneys licensed in the state of Illinois.

### C. Board Office

The Board of Examiners staff and administrative headquarters is located in Naperville, Illinois at 1120 E. Diehl Road, Suite 107 (Naperville campus building of Northern Illinois University). The staff consists of an Executive Director, Assistant Director of Certification, Assistant Director for Evaluation Services, Business Manager, Network Manager and three certification specialists.

The Board communicates with the public and candidates through U.S. mail, electronic mail, direct mail projects, phone and its World Wide Web site on the Internet at [www.ilboe.org](http://www.ilboe.org). Among the materials available to download are the Application for the CPA Examination, Application for Reciprocal CPA Certificate, Application for Total Transfer of Credit, Pre-qualification Academic Credentials Evaluation Form, Change of Address Form, Request for Special Accommodations per the Americans with Disabilities Act and Request Form for CPA Certificate Verification. Additional links are provided to Internet sites related to CPA certification, testing protocol, state boards of accountancy, the American Institute of Certified Public Accountants (AICPA), National Association of State Boards of Accountancy (NASBA), the Illinois CPA Society (ICPAS) and the Illinois Department of Financial and Professional Regulation (IDFPR).

## **D. Annual Report**

*Per the Act, "The Board shall make an annual report of its activities to the Governor and the Director. This report shall include a complete operating and financial statement covering its operations during the year, the number of examinations given, the pass/fail ratio for examinations, and any other information deemed appropriate. The Board shall have an audit of its books and accounts every 2 years by the Auditor General."*

The Auditor General performed a compliance examination of the Illinois Board of Examiners for the year ended June 30, 2019. The results of that audit showed the agency to have no material finding and that the agency was in compliance.

## **II. Historical Background**

### **History of Business - Certified Public Accounting in Illinois**

The Board of Examiners (BOE) awards a Certificate to candidates who have successfully met all educational and examination requirements for licensure in the state of Illinois including completion of "Professional Ethics: The AICPA's Comprehensive Course." The Illinois Department of Financial and Professional Regulation, Division of Professional Regulation, Public Accountancy Section, regulates licensing of public accounting, continuing professional education and enforcement. One year of public accounting experience or its equivalent as defined in statute is required for the license to practice public accounting.

Beginning in 1903, the Board of Examiners had the responsibility of examining and certifying public accountants in the state of Illinois. At that time the Illinois Public Accounting Act gave authority to the University of Illinois (University) for the CPA examination and issuance of the CPA certificate. The administrative functions of the University under the Illinois Public Accounting Act were performed by a Committee on Accountancy, appointed by and responsible to the President of the University. The Board of Examiners, comprised of 5 members who were nominated by the President of the University and approved by the Board of Trustees, conducted the examination and approved the grades.

Effective January 1, 1994 legislation was enacted amending the Illinois Public Accounting Act. The Board of Examiners was enlarged from five members to nine and absorbed the duties of the former Committee on Accountancy. Effective July 2, 2004, the Board expanded again to eleven members, including two public members. An Executive Director and two Assistant Directors of the Board of Examiners perform administrative functions of the Board under the Illinois Public Accounting Act, as amended. In 1995, the Board entered into a fee agreement for services with the University for management, administrative, clerical, bookkeeping, auditing, legal and other services as the Board deems necessary and/or appropriate for its administration and operation. In July, 2013, they entered into a fee agreement for services with the Northern Illinois University for management, administrative, clerical, bookkeeping, auditing, legal and other services as the Board deems necessary and/or appropriate for its administration and operation.

The Board of Examiners is funded solely through application fees and fees for miscellaneous services. The Board receives no appropriated funds from the State of Illinois.

During the last fiscal year (2021), the Board of Examiners evaluated 2,475 domestic credentials for exam qualification. An additional 270 candidates applied for pre-evaluations. During fiscal year 2020, Illinois ranked fourth out of 55 jurisdictions in total number of candidates testing for the CPA examination. For fiscal year 2020, there were 8,204 candidates sitting for Illinois. Those candidates sat for a total of 10,746 sections with an overall pass rate of 58.71%. For FY 21, 1,243 candidates were certified.

Beginning in March, 2020, the Covid virus took a tremendous toll on the world including the CPA profession. Illinois had almost 10,000 sections of the CPA exam attempted at a time when the testing centers were closing at a rapid rate. As of March 15 through June 30, 2020 testing was stopped nationally as the testing centers closed. During this same period, the Board of Examiners office closed for two to three weeks at a time while staff continued to work from home. The office re-opened periodically to make sure all mail was posted and candidates were updated on their status. By Board approval, exam scores due to expire during this time were extended until December 31, 2020 to ensure no candidate would lose a score due to the pandemic.

### **III. Work of the Agency**

#### **A. Certification by Examination**

Any individual who wishes to be certified as a CPA in Illinois through examination must submit an application and fee to test to the Board of Examiners. All applicants must meet minimum educational requirements as stated in 225 ILCS 450/3, Illinois Public Accounting Act. Once eligibility is established, an approval letter is issued to the applicant and an Authorization to Test is sent to the National Candidate Database, which coordinates the computer-based testing. The testing year is divided into four testing quarters and candidates can test during the months of January-March 10, April-June 10, July-September 10 and October-December 10. The Uniform CPA examination is administered at authorized Prometric testing centers throughout the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam and approved testing centers in Asia, Europe and the Middle East.

The AICPA develops and scores the exam. The Board of Examiners has the sole authority to approve and release scores to candidates and to issue certificates of completion of all education and examination requirements. Statistics for examination candidates are provided by the National Association of State Boards of Accountancy for the calendar year.

#### **B. Certification by Total Transfer of Credit**

Persons who have passed the entire examination as a CPA candidate from another jurisdiction may request transfer of those scores to Illinois and be issued an Illinois CPA certificate. All applicants must submit proof of academic eligibility and official CPA examination scores.

#### **C. Pre-Evaluations of Academic Eligibility**

Individuals planning to take the CPA examination at some point in the future may request the Board of Examiners establish academic eligibility to qualify to test. Upon submission of the evaluation form, fee and official academic credentials, the Board staff completes an evaluation of academic eligibility based on specific requirements as stated in 23 Illinois Administrative Code, Chapter VI, Section 1400.90, The Educational Requirement. The result of the evaluation is transmitted via mail to the applicant and is valid for a period of three years unless educational requirements are modified by statute during that time frame *and* the candidate has not taken the CPA examination.

#### **D. Miscellaneous transactions**

The Board receives many requests for services throughout the year. Among those requests processed are official certifications of valid CPA certificates and/or CPA examination score results; requests for candidate lists or statistics; duplicate CPA certificates; and statistical reports.

#### **E. Management responsibilities**

The Board of Examiners is in compliance with requirements relating to the obligation, expenditure and use of public funds, the collection of revenues and receipts and the handling of money or negotiable securities or other

assets. The Board is responsible for establishing and maintaining effective internal controls and for compliance with laws, regulations, contracts and agreements.

## **F. Agency Outreach**

In addition to the mandates of the agency listed above, the Board of Examiners has an extensive outreach in order to promote the Certified Public Accountant profession. The Director and senior level management speak to accounting students at colleges and universities throughout Illinois as well as schools bordering Illinois that typically have accounting students intending to practice in Illinois. The purpose of these presentations is to not only promote the profession, but to provide information to the students on the process of applying for the CPA examinations, materials covered on the examinations, how to prepare for the examinations, what to expect at the examination test center, etc.

Additionally, the Executive Director and staff also work with various organizations to promote the CPA profession. These organizations include inner city high schools and not for profit organizations which encourage underserved and minority students to achieve at the highest level. Through these organizations, the staff of the agency is able to interact with students to encourage achievement while at the same time, promote the CPA profession.

## **IV. Offices of the Agency**

### **Administrative Office**
